Reviews

It is one of the best books. Indeed, it really is a play, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

Oxford University Press. Paperback. Book Condition: new. BRAND NEW, Writing and Script: A Very Short Introduction, Andrew Robinson, Without writing, there would be no records, no history, no books, and no emails. Writing is an integral and essential part of our lives; but when did it start? Why do we all write differently and how did writing develop into what we use today? All of these questions are answered in this Very Short Introduction. Starting with the origins of writing five thousand years ago, with cuneiform and Egyptian hieroglyphs, Andrew Robinson explains how these early forms of writing developed into hundreds of scripts including the Roman alphabet and the Chinese characters. He reveals how the modern writing symbols and abbreviations we take for granted today - including airport signage and text messaging - resemble ancient ones much more closely than we might think. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.
