Accountability Office, 2011 OCLC Number: (OCoLC)750011407 Subject: Local transit -- United States -- Safety measures. Excerpt: . . . Transit Agencies Face Challenges in Ensuring the Safety of Their Rail Systems Instilling a safety culture agencywide is a challenge the largest transit Instilling Safety Culture Is 22 agencies face that can impact their ability to ensure safe operations. The a Challenge for the Largest concept of safety culture can be defined in different ways and the level of Transit Agencies safety culture in an organization can be difficult to measure. As we have previously reported, safety culture can include: organizational awareness of and commitment to the importance of safety, individual dedication and accountability for those engaged in any activity that has a bearing on safety in the workplace, and an environment in which employees can report safety events without fear 23 of punishment. According to NTSB officials, in organizations with effective safety cultures, senior management demonstrates a commitment to safety and a concern for hazards that are shared by employees at all levels within the organization. Furthermore, such organizations have effective safety management systems that include appropriate safety rules and procedures, employee adherence to these rules and procedures, well-defined processes for identifying and addressing safety-related problems, and adequate safety training available for employees and management. FTA officials told us that it is difficult to define safety culture but noted that attributes of a strong safety culture include open communication about safety throughout the agency, nonpunitive safety reporting by employees, and the identification of safety trends based on agency-collected data. In addition, APTA officials told us that another attribute of 22 All 12 rail transit safety experts we...
