

Disconnect: The Truth About Cell Phone Radiation, What the Industry Has Done to Hide it, and How to Protect Your Family

Filesize: 2.07 MB

Reviews

It is an awesome book that we have possibly go through. It is actually writter in straightforward words and phrases and not confusing. It is extremely difficult to leave it before concluding, once you begin to read the book.

DISCONNECT: THE TRUTH ABOUT CELL PHONE RADIATION, WHAT THE INDUSTRY HAS DONE TO HIDE IT, AND HOW TO PROTECT YOUR FAMILY

Tantor Media, Inc, United States, 2010. CD-Audio. Book Condition: New. Unabridged. 196 x 146 mm. Language: English . Brand New. Devra Davis presents a range of recent and long-suppressed research in this timely bombshell. Cell phone radiation is a national emergency. Stunningly, the most popular gadget of our age has now been shown to damage DNA, break down the brain's defenses, and reduce sperm count while increasing memory loss, the risk of Alzheimer's disease, and even cancer. The growing brains of children make them especially vulnerable. And half of the world's four billion cell phone users are under twenty. Davis, the founding director of the toxicology and environmental studies board at the U.S. National Academy of Sciences, takes listeners through the dark side of this trillion-dollar industry. Health experts have long been frozen out of policy-making decisions about cell phones; federal regulatory standards are set by the cell phone industry itself. Cell phone manufacturers have borrowed the playbook of the tobacco industry. One secret memo reveals their war plan against reports of cell phone dangers. Among a host of fascinating characters, Davis introduces Om P. Gandhi, a world expert on how cell phone radiation penetrates the human brain. Once a consultant to major cell phone companies, Gandhi now refuses to work with them. We also meet Franz Adlkofer, who led the multi-lab study that showed once and for all that brain cell DNA is unraveled by cell phone microwave radiation-and, as Davis dramatically portrays, it nearly cost him his career. As this eye-opening call to action shows, we can make safer cell phones now. Why would we put our children at risk of a devastating epidemic of brain illness in the years to come?.
