Palgrave Macmillan, UK, 2005. Hardcover. Book Condition: New. Dust Jacket Condition: No Dust Jacket. First Edition. 152 Pages. NEW. This book provides new insights into the application of dynamic models to emerging markets. Each chapter focuses on a different topic and examines the behaviour of financial and economic variables in a large number of emerging economies in Eastern Europe, Latin America, and Asia. The studies reveal the most appropriate model specifications that should be used in analyzing the behaviour of variables such as interest rates in both emerging and non-emerging markets, banks' credit and default risk, sovereign bond risk, inflation, external debt and growth in emerging markets. The results have important implications for pricing of securities in financial markets and strategy of banks and other financial institutions and policy makers. This book is valuable for all those working on financial markets and emerging economies, in particular those who are working on dynamic models at universities, financial institutions, central banks, and other national and international agencies.
